

It's Always Good to Have a Stethoscope

*Music: Henrik Widegren,
Markus Nilsson, Tobias
Ekqvist
Lyrics: Henrik Widegren*

You can listen to the beating
of the heart
You can hear all the murmurs
of the valves
You can hear the air in the
lungs
And all the bubbly stomach
sounds
It's always good to have a
stethoscope

A stethoscope, a stethoscope
It's always good to have a
stethoscope

You can strangle an
irritating patient
You can sell it if it's
valuable and ancient
You can use it as a wrecking
ball
If your house is very small
It's always good to have a
stethoscope

Tie a wild and hyperactive
child
Wrap it round your head to
make you styled
Hang a dozen on your yacht
and they'll
Be like fenders on your boat
rail
It is good to have a
stethoscope

A stethoscope, a stethoscope
It's always good to have a
stethoscope

If your friend has fallen
from a dock
Take your stethoscope and
pull him up

Or bring it on your submarine
As a useless periscope
It's always good to have a
stethoscope

You can use it to caress your
thigh
If your special friend has
said good bye
Or why not tag along
And use it as a thong
It's always good to have a
stethoscope

A stethoscope, a stethoscope
It's always good to have a
stethoscope

You can always brush away
some wax
If you're hungry and in need
of snacks
Or use it as an endoscope
If so, be sure to clean with
soap
It's always good to have a
stethoscope

If you think that S&M is hip
You can always use it as a
whip
Or give a stethoscope
fetishist
His biggest trip
It's always good to have a
stethoscope

If you're full and you would
like to choke
You can pull it up and down
your throat
Or write a really shitty song
That no one wants to quote
It's always good to have a
stethoscope

A stethoscope, a stethoscope
It's always good to have a
stethoscope...
